

Pictona Garden Club

Membership

Any person may join the Pictona Garden Club by submitting a Membership Application and agreeing to Pictona Community Gardens Rules. All plot holders become automatic members of the Pictona Garden Club, but plot rental is not a requirement for membership.

Mission

Pictona's Senior Activity Center exists to help the senior citizens of Holly Hill and the community at large improve their health through physical activity and better nutrition. The Community Gardens support this mission by fostering environmental sustainability and stewardship, promoting horticultural and nutritional education, producing a healthy and supplemental food source for its gardeners and for Pictona's restaurant (The Kitchen), and providing community members with enriching opportunities for physical activity. The Pictona Garden Club will work to support this mission in the Community Gardens by encouraging participation in the Gardens, donating time to Garden activities, and by helping the SAC Director coordinate volunteer opportunities that contribute to Garden success.

Meetings

The Pictona Garden Club will meet once a month, with other meetings scheduled as needed.

Leadership

Officers are unpaid volunteers chosen from membership. They will self-nominate prior to the December monthly meeting and then be selected by a vote of Garden Club members present at the December meeting. Members will choose a President and Vice President, who will then serve for the following calendar year and assist the SAC Director in leading Garden initiatives and fulfilling the SAC's mission in the Community Gardens.
